Fundamentals of the 2012 International Mechanical Code

CLASS DESCRIPTION: This class will be a great opportunity for the advanced as well as the intermediate to beginner to participate in a discussion covering mechanical systems, terminology, equipment, materials and methods. It will enhance your understanding and knowledge in ventilation and exhaust systems, fire dampers, smoke dampers, return air paths, duct systems and more, helping out with plan reviews as well as in field inspections.

Instructor Profile:

Brent Ursenbach is the Salt Lake County Energy/Mechanical Code Specialist and ICC Combination Inspector. He retired from HVAC contracting in 2005 after 33 years working in the field, now working as a code official for the past 6 years. He currently serves on the Utah Chapter ICC Code Change and Development Committee, Vice President on the RMGA (Rocky Mountain Gas Association) Board of Directors and is a member of the Utah UBCC Mechanical Advisory Committee. He currently serves as a member of the ACCA Manual S Advisory Committee working on updating the ACCA/ANSI Standard for residential HVAC equipment selection. He is actively involved in the legislative process working on issues such as education/licensure of HVAC technicians and adoption of current energy conservation codes. Brent has presented numerous seminars on energy, mechanical and fuel gas code, as well as HVAC design principles.
